Kate Sumner

DESIGNS™

The idea for Kate Sumner Designs™ was born from childhood memories of sitting with my mother as she shared the significance of a handwritten note. That significance is even more meaningful today as I pass on these traditions to my two young daughters, Kate and Sumner, the names behind Kate Sumner Designs™.

Kate Sumner Designs™, which debuted at the National Stationery Show in 2008, is synonymous with a current look featuring **clean** lines and timeless appeal. Inspiration for the line comes from a love for stylish interiors, classic architecture, and **modern** fashion. This fusion creates a style of high design and refreshing simplicity, highlighted by crisp, delicious colors.

From monogrammed birth announcements to holiday photo cards, from save-the-dates to that gracious handwritten note, Kate Sumner Designs™ is the **sophisticated** choice for life's celebrations.
